

# NORAN NEUROLOGY

## **Welcome to the Noran Neurology Infusion Center**

### *Infusion Services with the Comforts of Home*

We are dedicated to providing you with a safe, caring and comfortable environment. The Noran Neurology Infusion Center services are customized to meet your individual requirements, which includes your need for cost-effective care. Our services are significantly less costly than hospital or home-based infusion services.

The Noran Neurology Infusion Center can accommodate adult and pediatric patients. Patients under 18 must be accompanied by an adult.

Here's what you can expect from us:

- Coordinated care with your physician
- Experienced infusion nurses
- A safe, relaxing environment
- Answers to your questions and concerns
- Appointments that meet your needs

### **Coordinated Care**

Coordinated care delivers superior results. Our infusion center staff will coordinate closely with your physician.

### **Expert Attention**

You can trust that you are in the hands of experts. Our Infusion Care Team is comprised of neurologists, advanced practice providers, registered nurses and support staff. The Noran Neurology Infusion Center registered nurses are highly experienced at administering infusion therapies.

### **Outside Referrals**

While many of our infusion patients see a Noran Clinic neurologist, we welcome patients who wish to only receive infusion services. We will work closely with outside physician offices to confirm insurance coverage and keep your physician updated regarding your response to treatment.

### **Comfortable Setting**

At the Noran Neurology Infusion Center, we do everything we can to make patients, their family and friends feel at home. We have comfortable reclining infusion chairs to make your visit as comfortable and relaxing as possible. You are welcome to bring your own entertainment options or choose from our wide range of amenities including reading materials, internet access, and tablets to stream programs from our Netflix account. Beverages and snacks are also available for our infusion patients.

## **Safe Environment**

Noran Neurology is committed to the success of your care and experience. Our patients receive personalized treatment plans, with all infusions performed according to your doctor's recommendations and protocols. This ensures that the rate of infusion and medication is tailored to your specific condition. Safety procedures are in place, with providers on site, in case of an adverse reaction to medication.

## **Comprehensive Treatments**

The Noran Neurology Infusion Center is available to infuse a variety of medications for a number of conditions, offering personalized treatments for the following:

### **Neurology**

- CIDP, Guillain-Barre Syndrome, Multifocal Motor Neuropathy, Polyneuropathy, Myasthenia Gravis, Stiff-person Syndrome

## **Insurance Coverage**

We will guide you through the insurance verification and authorization process. For questions, please call our infusion coordinator at 612.879.1684.

## **Noran Neurology Patient Portal**

Our website contains helpful information about our providers, services, locations, and the conditions we treat. You can access much of your chart information through our secure patient portal, My Noran Clinic. You can also send a message to your provider, request an appointment, prescription refill or medical records, and make payments.
